

CREATIVE TRADES...

coming to a town near you

Creative Trades ITO is going to be running Industry Meetings in towns and cities across the country.

We are doing this to find out more about local businesses; what the issues facing our industries and employers are, what training and qualification needs there are in your sector and where you see the future of your industry.

Creative Trades is looking for business owners to take part and become involved in this next stage of the project and we're hoping you'll be one of them.

We will be running the meetings in March and April in city centres.
